## GLOBAL YOUTH ADVANCEMENT NETWORK

In August 2016, Dean Robert Floden of the College of Education and Dean Steve Hanson of International Studies and Programs, at the request of the Provost, established a task force to explore the potential for MSU to take on the coordination of programs related to the “advancement” of youth across the globe. As expected, the task force found that MSU faculty and staff are engaged in numerous groundbreaking pedagogy, research and outreach projects that are serving youth across the state of Michigan and internationally.

GYAN aims to be a bridge between such faculty and external stakeholders to develop a series of activities, tools and relationships designed to provide young people with the ability, authority and agency they need to visualize, plan, implement, critique and re-imagine the realities around them.
